TRACY RIDDELL PHOTOGRAPHY

Live it...feel it...capture it!

Life is a collection of daily celebrations 2013 CALENDARS

HIGHLIGHTS

This past spring and summer was filled with a variety of remarkable photographic opportunities, both local and out of the country: newborn babies, family portraits and weddings; floral delights of colourful nurseries and garden tours; summer road trips; daily hikes and walks observing BC's nature and wildlife; capturing local news events, Canada Day celebrations and the annual motorcycle charity toy run, benefitting families in need at Christmas. As the cold weather of mid-fall sets in, I reminisce of the desert heat, hiking amongst the hills of Cave Creek and the beautiful red rocks of Sedona, Arizona. The desert vegetation is awash with unique textures and shapes that glow in the morning and evening light. If you have not been to Arizona, it is a trip you will not regret. Wherever my camera takes me, my passion for photography grows with every person I meet and every photo I take.

~ Tracy
